

Date : July 18, 2003 AEO (After Executive Order)
To : Manager II/III Promotional Applicants
From : The Usual Group of Managers, Supervisors and Administrators....
Subject : Manager Test Study Guide:

According to the Job Announcements for the II/III, the written test will be September 13th. ASSUMING the current situation doesn't alter that projected date, you have about 6 weeks to study for the written part of this examination process.

In the coming 'AEO' years, the number of opportunities for Upward Mobility may be reduced due to the number of positions eliminated. SOME may want to throw up their hands and say, 'There will ONLY be a very few openings in the next two years....What's the use?' OTHERS will realize that NOW is the time to study harder, to be ready for those rare opportunities when they DO arise.

Attached is a Manager Test Study Guide that helped many people determine what they needed to study, in order to pass various Managerial Written tests. These are the **categories and types** of questions USUALLY contained on various Manager 1,2, & 3 tests at DMV (though more and more, the questions are asked in very DMV-specific settings....Instead of a math question asking about 4.5 'widgets' per hour, times 8.5 hours in a day, it might read 4.5 drive tests per office-hour, how many in a week if you have 3 examiners....But the math is still the same, no matter what the setting....).

If math is your strong suit on tests, brush up, but don't necessarily study like you were in college....STUDY WHAT YOU DON'T KNOW! I don't know if there'll be much Reg or DL on this level of test, but the Test announcements mention Administration, 'fiscal policies' (accounting), Contract administration, etc. The Flyer has told you exactly what the various sections of the written test will cover....Find the proper manual & read it.

The Reg & DL answers in this guide were last updated by employees who were studying for the Manager I test 4 years ago (so it's been a while...there are many 'wrong answers'...It's the TYPES of questions we're trying to convey here). When you see an answer that you "just know is wrong" then LOOK IT UP....What we actually do every day is not always exactly what the law (or even the Manual) says we should do. And the test you'll take is based on the Vehicle code and the Manual; not reality. Use the Reg/DL Manual as a secondary source of information, as the CODE is the most important source.

If you study hard you won't need luck, but we still wish you GOOD LUCK from the entire DMV Management Team.
